Candidate 18773500
Full Stack Developer

SUMMARY

He is a seasoned full-stack developer with 12 years of experience in designing and building innovative websites and web applications. He possesses a comprehensive skill set encompassing a wide range of technologies, including Python, NodeJS, PHP, JavaScript (React, NestJS, NextJS, AngularJS, VueJS), MySQL, PostgreSQL, MongoDB, AWS, Google Cloud, CI/CD pipelines, Docker, Kubernetes, WordPress, Shopify, Laravel, Drupal, Django, and Git. Additionally, he has expertise in SEO.

Throughout his career, he has held senior full-stack developer positions at various companies, including Virtualgraffiti, Zegal, Century Properties, and BORRAS. In these roles, he has consistently led the development of custom web applications, integrated third-party APIs, and optimized website performance. He is proficient in utilizing technologies such as Node.js, React.js, Symfony PHP, WordPress, Python, and Angular. He has also provided technical support, mentored junior developers, and implemented SEO strategies to enhance web visibility.

Prior to his full-stack roles, he worked as a System Analyst at Insead and as a Senior Web Developer at EZY Service Centre Corp and Creative Curiosity, where he honed his skills in web development and system analysis. He also has experience as an Equipment Engineer at Analog Devices, demonstrating his ability to troubleshoot and optimize technical systems.
